DOZEN NAZI 'WAR CRIMINALS' TO HANG

Life Sentence For Hess, Funk And Raeder

SCHACHT, FRITSCHE & VON PAPEN DISCHARGED

Soviet Dissent From Judgment: U. S. Prosecutor Regrets Acquittals

NUREMBERG, October 1, (Reuter): Twelve leading Nazis including Goering, Ribbentrop and Streicher, were sentenced to death by the International Court at Nuremberg today.

Three—Hess, Funk and Raeder—will go to prison for life.

Four—Schirach, Doenitz, Speer and Neurath—received lighter prison sentences.

THREE DISCHARGED

Three—Schacht, Von Papen and Fritsche—were found not guilty and discharged despite the view of the Soviet member of the Tribunal that they should have been convicted.

The Soviet Judge also believed that Hess should have been sentenced to death and that the Reich Cabinet, General Staff and High Command should have been declared criminal bodies.

Lord Justice Lawrence announced that the dissenting opinion would be put into writing annexed to the Tribunal's judgment and would be published as soon as possible.

APPLICATIONS FOR CLEMENCY

The Tribunal adjourned for one hour when the sentences on the accused are expected to be passed.

Before adjourning the Court, Lord Justice Lawrence told the defendants that any applications for Clemency to the Control Council must be lodged with the General Secretary of the Tribunal within four days of today.

GOERING, PRIME AGGRESSOR

Lord Justice Lawrence, President of the War Crimes Tribunal opened the court's final session shortly after 9-30 a.m.

Lord Justice Lawrence said of Goering "evidence showed that after Hitler he was 'he most dominant man in the Nazi regime."

'There can be no doub." Lord Justice Lawrence said "that Goering was moving force for aggressive wars, second only to Hitler.

"He was pioneer and prime mover in military and diplomatic preparations for wars which Germany pursued.

HITLER'S PERSONAL CONFIDENT

Next the Russian Judge went on to indict Rudholph Hess Hess, he said was an informed and willing participant in German aggression against

Rudolf Hess

Austria, Czechoslovakia and Poland.

Until his flight to England, Hess was Hitler's closest personal confident. The relation was such that Hess must have been informed of Hitler's aggressive plans when they came into existence.

Hess was found guilty on Count One and Two but not guilty on Count Three and Four.

Indictment of Joachim Von Ribbentrop, 52-year-old Foreign Minister and Former Ambassador in London was next read. The court found that he was responsible for war crimes and crimes against humanity because of his activities in respect to occupied countries and Axis Satellites.

Ribbentrop was found guilty on all the four counts.

On Wilhelm Keitel, 63-year old former chief of German General Staff the court found that he directed that Russian War prisoners should be used in German war industry.

Von Keitel was declared guilty on all four counts.

Other findings were: Ernst Kaltenbrunner, 43-year old Security Police Chief under Heinrich Himmler: "the leader of the S. S. in Austria Kaltenbrunner was active in Nazi intrigue against Austria".

Kaltenbrunner was found not guilty on Count One but guilty on Counts Three and Four.

"PHILOSOPHER" OF NAZISM.

Alfred Rosenberg, 52-year old, "Philosopher" of Nazism: he was head of the organisation whose agents were

Goering

active in Nazi intrigues in all parts of the world. He had knowledge of the brutal treatment and terror to which the people of Eastern Europe were subjected. Rosenberg was found guilty on all counts.

Hans Frank, 45-year old, former Governor of Poland: the judge said there was not sufficient evidence of his knowledge of the common plan of conspiracy to allow the tribunal to convict him on Count One. Frank was found guilty on Counts Three and Four.

Wilhelm Frick, 69-year old, former Governor of Bohemia and Moravia and ex-Minister of the Interior: described as "ambitious Nazi" he was largely responsible for bringing the German Nation under complete con-

trol of the National Socialist Party.

Frick was found not guilty on Count One but guilty on Counts Two, Three and Four.

JEW BAITER.

Julius Streicher, 60-year old former Jew Baiter, owner and publisher of the anti-Jewish newspaper 'Der Stuermer': he was "a staunch Nazi" and supporter of Hitler's main policy. He was ever in Hitler's inner circle.

He was found not guilty on Count One but guilty on Count Four.

REICHSBANK PRESIDENT

Wilhelm Funk, 55-year-old former Economic Minister and Reichsbank President, he became one of Hitler's personal economic advisers. He took part in the economic planning which preceded the attack on U.S.S.R. and in printing Roubles in Germany before it.

As President of the Reichsbank he was also indirectly involved in the utilisation of concentration Camp Labour.

Funk was found not guilty on count one, but guilty on counts two, three and four.

FINANCIAL WIZARD

Hjamlar Schacht, 68-year-old financial "wizard": He was an active supporter of the Nazi Party before his accession to power and supported Hitler's appointment to the post of Chancellor.

Schacht was clearly not one of Hitler's inner circle, which was most

BOMBAY, Tuesday.

The Press Note adds: "This purports to be a letter written from Calcutta by a person called 'Habibur-Rehman'—dated 18th August, 1946.

"This letter is a fake, because it is dated 18th August, and refers to the Bombay disturbances which began on September 1, i.e., it mentions events that happened a fortnight later.

"Government appeals to the Press and the public to beware of all such literature which is apparently the handiwork of persons who have nothing to lose and everything to gain by a disturbance of the peace."

GHAVAM'S ENVOY TO SHIRAZ

In circles close to Ghavam-es-Sultaneh, the Persian Prime Minister, it was stated that a special envoy of the Premier is to leave for Shiraz, the capital of Fars Province, Southern Persia, to reopen negotiations with Nasir Qashqai, leader of the tribesmen.

In other quarters it was held that because the recent mission sent by the Premier to Nasir failed to secure peace an entirely new mission would be sent.

Fate Of Br. Assurance

A London message says:—

Persia rejecting British assurances, has repeated her demand that two British officials whom she accuses of being involved in the rising of the Bakhtiari tribesmen in Southern Persia be withdrawn, cables Reuter's diplomatic correspondent.

The officials are Mr. Charles Alan Troit, Oriental Secretary at the British Embassy in Teheran, and a Consular official named Gault.

The first approach on the subject was made by the Persian Ambassador in London who told the British Government that the two men were believed to have been connected with the revolt.

The Foreign Office assured Persia that they were in no way involved and it is this assurance, it is authoritatively stated in London, which is now rejected.

Britain does not admit the charges and it is not yet clear what the next steps will be.

"STATES SHOULD BE READY TO DEAL WITH NEW RAJ"

Sir "C. P." Says Paramountcy Will Go When Free India Emerges

TRIVANDRUM, Sept. 30, (A.P.I.): "The right procedure to be followed by Indian States is not to become parties to any communal discussions and controversies that are now proceeding or are likely to take place. They should be prepared to deal with the new Raj, whatever its political or communal complexion may be as they have dealt with the Government of British India in the past, remembering, however, that Paramountcy as now understood will cease to exist with the emergence of any new constitution based on the ideal of an independent India", said Sir C. P. Ramaswami Iyer, Dewan of Travancore, commenting on the statement Sir Sultan Ahmed is reported to have made on the Constituent Assembly.

Sir C. P. Rawaswami Iyer in an interview to the Associated Press of India said: "Generally speaking Indian States have kept themselves scrupulously aloof from the political and communal controversies of British India and have in the past dealt with British India in crucial matters through the Crown Representative and departments specially under him. The declaration of May 16 and subsequent developments in British India have definitely brought about a vital change in the outlook and future programme of the States who have to adjust themselves to the circumstances attendant on the likely creation of an independent India. Their internal administration and their policies in relation to British India and the outside world have to be remodelled so that they may fit themselves to the new set-up. At the same time it must not be forgotten that the communal troubles that disfigure British India are much less evident in Indian States for reasons on which it is not necessary to dwell just at present.

"In view of these aspects I maintain that the right procedure to be followed by Indian States is not to become parties to any communal discussions and controversies that are now proceeding or are likely to take place.

"They should be prepared to deal with the new Raj, whatever its political or communal complexion may be as they have dealt with the Government of British India in the past remembering however, that paramountcy, as now understood, will cease to exist with the emergence of any new constitution based on the idea of an independent India. If the duly constituted and 'de facto' Government of India summons a Constituent Assembly and takes other steps out-lined in the statement of May 16 the Indian States, in my opinion, cannot withhold their participation, though Sir Sultan Ahmed is technically correct in observing that such an Assembly, if it happens to compromise in the main of members of one party will not be fully representative of all the interests and communities concerned and its mandate may not, thus, be comprehensive".

A Great Cricketer Passed Away In Dolly Kapadia

(BY J. C. MAITRA.)

I learnt with deep regret the news of the sad demise of that famous cricketer, "Dolly" Kapadia, on Monday evening. He was out of the stage several years ago. But he was associated with the game as an administrator till the time of his death. In the hey-day of his career, he was extremely popular with the crowd as a batsman. As a contemporary of C. K. Nayudu, he vied with him in making big hits. A veritable terror to the bowlers once he got going. He has left an indelible mark in the annals of Bombay cricket—particularly on the Quadrangular.

'Dolly' was a good hockey player too. But he was a hockey umpire par excellence. He will be remembered for many a day for the interitorious services he rendered to Bombay's sport in one capacity or another for over a quarter of a century. May his soul rest in peace!

W.I.F.A.'S COSTLY LUXURY.

It is reported that the W.I.F.A. has engaged a professional coach from Britain on a salary of £1,000 per annum—or is it per season? This hailed as a step in the right direction as it is expected that the coaching imparted by the expert to our promising players would turn them into stars overnight. I have my grave doubts about the utility of importing foreing coaches—and costly ones at that—who have no idea about the manner in which Indian players play.

I am referring particularly to the players who play bare footed. It is almost impossible for them to change their style altogether. Those who take to boots at an advanced stage continue to play in the same way as they do without them—especially in the manner of using their feet in kicking the ball. They adopt the booted style mainly for long-range kicks and shots. Thus any attempt to overhaul the Indian style of play is foredoomed to failure.

DOUBTFUL UTILITY.

Unfortunately those who are trying to improve the standard of Indian football have no idea of the methods of our play. What they desire is a complete transformation of the Indian player into a European player in style and method of play. That may be possible if our players take to boots from the very beginning of their career. The prohibitive cost of boots makes this an impossibility for most of our soccer enthusiasts. I do not wish to refer to their other disabilities and handicaps at this stage. Would the W.I.F.A. provide all our budding players with the necessary gear?

In one respect, however, a British coach may be useful and that is in regard to tactics and stratagem. Most of our teams and players fail at critical moments, because they are unable to adapt their play to suit the occasion. The guidance of an experienced coach may be helpful to them. But if our players and teams are kept within their own city or provincial borders, how can they rise to the summit?

LEGAL ADVICE ON ATOMIC WAR SANCTUARY SOUGHT

DENVER, October 1. (U.P.A.): Dr. Maurice Doreal, American Patriarch of Asiatic Cult, today sought legal advice to learn that if the U. S. Government would stop work on his million dollar atomic war sanctuary in the Rockies.

Doreal is the "supreme voice" for 20,000 members of the Brotherhood of the White Temple. The Civilian Production Administration has stopped work on Shamballa Ashram, the name given by the cultists for the isolated mountain hide—away where selected cult members can flee if atomic weapons rain death on mankind.

Doreal says that he learned of the mysteries of the universe from priests of the Royal Order of Shamballa during his eight years in Tibet and claims that he still communicates with the Oriental occult world.

EIGHT MADRAS DISTRICTS GO DRY

Govt. Takes Steps To Provide Employment For Those Thrown Out Of Job

MADRAS, Oct. 1 (A.P.I.): Madras, which led the rest of India eight years ago under the first Congress Ministry by introducing prohibition for the first time in this country, took a yet greater stride in her march towards total prohibition today when a third of the Province comprising eight contiguous districts was brought under the Prohibition Act.

The eight districts are: Coimbatore, Salem, North Arcot, Chittoor, Cuddapah, Kurnool, Bellary and Ananatapur with a total population of about 13 million.

PREMIER INAUGURATES

The Premier, Mr. T. Prakasam, inaugurated prohibition at Cuddapah.

With the enforcement of the Prohibition Act, the manufacture, possession or sale of all kinds of intoxicants in the eight districts are forbidden, as also the use and possession of utensils and implements used in their manufacture.

Advertisements in newspapers, magazines and periodicals commending or soliciting the use of liquor is also prohibited.

Government will have to forgo excise revenue annually to the tune of Rs. 5,21,00,000 as a result of prohibition in the eight districts.

The loss in revenue on account of prohibition is expected to be met by the Sales Tax which has been imposed by Government specifically for the purpose.

THE PENALTY

Any contravention of the Act is a cognisable offence, punishable with fine extending up to Rs. 5,000 and imprisonment up to three years or both.

PROVIDING NEW JOBS FOR 1,50,000 MEN

Roughly 1,50,000 men employed in toddy tapping, manufacture of toddy and arrack and generally in the trade will be thrown out of jobs as a result of the introduction of prohibition in all the eight districts. Land colonisation, road construction, manufacture of sweet toddy and jaggery, khaddar and other cottage industries will be started simultaneously with the introduction of prohibition to provide employment of these men.

No More Recruitment To I.C.S..

(From Our Correspondent)

It is learnt from a very reliable source that the Interim Government has decided not to recruit new members to the Indian Civil Services in future, but candidates who have already been selected by the interviewing boards have been assured that they will be offered alternative services which may be named the "Indian Federal Services."

In this connection, it is further learnt, a bill is being drafted by the Legislative Department of the Government of India and according to the present programme the bill will be discussed in the next session of the Central Legislative Assembly.

No Privileges For Power Loom Industry

Textile Deputy Chief Answers Criticism Of Yarn And Price Control

SURAT, Sept. 30 (API).—A warning that the power loom industry in the country cannot demand a higher price because small factories did not possess ideal machinery and implements or were not run except in anachronistic lines, was given by Mr. Shiveshwarkar, Assistant Textile Commissioner, Government of India, speaking at the Bombay Provincial Power Loom Weavers' Conference.

Mr. Shiveshwarkar was a member of a Three-men Commission representing the Textile Commissioner, the Textile Control Board and the Honorary Adviser to the Textile Control Board, that completed today an enquiry into the alleged "unjustness" of the price schedule proposed by the Government of India to fix the ceiling price of cloth manufactured in power-loom factories having four to 24 looms. The Commission—a sequel to the "non-co-operation" move set afoot by the Bombay Provincial Power-Loom Weavers Conference—visited representative factories in the town to see at first hand the difficulties of the weavers affected by Government's price fixation order.

Replying to the complaints put forward by the representatives of the industry from Surat, Malegaon, Nasik and Biwandi on the inadequacy of supply of yarn of both coarse and fine counts, the Assistant Textile Commissioner said that there was yarn shortage throughout the country and factories could not expect all their wants to be satisfied. He, however, agreed that they were entitled to get the specified count and type of yarn as far as possible.

Mr. Shiveshwarkar wanted the weavers to realise that the fact that small factories were not being conducted on ideal lines did not entail higher prices for the goods manufactured in them.

Regarding the request of the representatives to postpone the date for fixing the prices Mr. Shiveshwarkar promised the Conference that he would try and persuade the authorities to get this done but he said the prices would be fixed as early as possible on a basis fair to producers and consumers.

Y GREETINGS

October is celebrat- Gandhiji's birthday, s his 78th birthday, ted with more than cause Swaraj, the hich he led these ars, is now almost sp. The joy of vic- ss marred by com- rbances in various parts of the country. But these are more or less the inevitable results of some of the ugliest features of our long subjection. These will pass off soon enough and Gandhiji, who has been these many years the foremost architect of communal unity, will continue to be so. Referring to this achievement of Gandhiji, Dr. Syud Hussain remarked the other day: "The problem of national unity has become even more emergent relatively than the completion of national freedom. I trust that he will now address himself in earnest to restoration of Hindu-Muslim unity. He was the first Hindu leader who evoked willing allegiance and loyal devotion of millions of Indian Muslims. It was a tragedy when they fell away from his leadership. I think Gandhiji still has the power to recapture their confidence and rekindle their faith. If he succeeds, it will be the crowning achievement, his real life work". We have no doubt Gandhiji is fully aware of his power as well as his obligation in this matter, and that is one reason why he continues his stay at Delhi during the negotiations between Mr. Jinnah and the Viceroy. Short of accepting the two-nation theory and the view that Congress represents only caste Hindus, he will, we have no doubt, go far to conciliate the League. And we are confident, too, that Congress will whole-heartedly follow Gandhiji's lead.

Even apart from communal unity, Gandhiji has laboured for many other great things and has already achieved no small measure of success. He is and will continue to be best known for his highest moral ideals and his uncompromising pursuit thereof, particularly for his theory and practice of Satyagraha or non-violent resistance. This began in South Africa, dominated the national struggle for Swaraj in India for twenty-five years, and some of its most uncompromising critics now acknowledge its potency. Gandhiji will also be known, for ever and ever, for his cult of simple life, beautified by his deep love for the lowliest of the lowly, his constant striving to identify himself with them and to serve them. For the most beautiful specimen of plain living and high thinking one has only to turn to the life and teachings of Mahatma Gandhi. It is therefore, not at all surprising that millions, irrespective of class or creed, love and revere him, nay, almost adore him. We join them all in wishing him many more years of service to humanity.

Primary Education In Bombay

The Bombay Government deserves to be congratulated on its revising the 1945 plan of primary education and adopting a wider and more speedy one. While the former plan was to introduce free and compulsory elementary education for children between the ages of 6 and 11 in the concentrated areas which amount to about a third of the Province, within a period of 15 years, the present one will cover the ground in about ten years, compulsion being first introduced in all villages with a population of 1,000 and over and in all towns and then extended to other areas. In the first year fresh compulsion will be applied to children between the ages of 6 and 8 and will have been extended in the fourth year to children of the age group 6 to 11. We would like to know the plan for smaller villages with a population below 1,000 and whether it will not be feasible to introduce compulsion in groups of near-by villages with a total population of 1,000 or more, or to introduce immediately free primary education without compulsion in all villages and groups of villages with a population between 500 and 1,000.

As important as the extension of primary education is its nature or curriculum. We do not go so far as to say, as some educationists do, that mere instruction in the three R's may be worse than useless, particularly when it is compulsory. That instruction is absolutely necessary for every human being, with or without practical instruction of a vocational character whether under compulsion or without it. But it is highly desirable that every village boy or girl should also be taught some craft and the barest elements of agriculture. It is therefore, gratifying to note that Government has decided to introduce as an immediate step craft training in all primary schools. But agriculture should not be neglected. Every village school should be an agricultural bias school. And the teachers may well use such schools to provide some useful agricultural instruction even to the children's parents.

That leads us to the important question of adult education, with special reference to literacy. No programme of mass education can be complete without adequate attention to adult education. Literacy should be the rock-bottom minimum instruction that should be imparted to every illiterate adult in villages as well as towns. And that should be possible, to our mind, in not more than ten years. In many towns it should be possible in five. An adult literacy campaign is the cheapest and most beneficent educational venture, having regard to its good effects being immediately tangible. We shall be happy to know full particulars about Government's plan of adult education with special reference to adult literacy.

Frankly Speaking

Teheran's Troubles

The Qashqais are in such a state of open rebellion that any Government would be justified if it took drastic action against them. But the Iranian Premier is acting in a wiser and more statesmanlike spirit of compromise. To the "ultimatum" of the Qashqai leader he has replied by asking the latter to await the Government mission for further negotiations. There is a Teheran report that Government quarters express confidence that a satisfactory final settlement would be reached. This means that Ghavam-es-Sultaneh is going to treat the Qashqais with sympathy and generosity. We hope a satisfactory settlement is soon arrived at. Meanwhile deadlock is again reported between Azerbaijan and the Central Government. Unless Iranian Azerbaijan is determined to secede from Iran it is rather difficult to see why difficulties should crop up every now and then in the way of the final settlement. For, M. Ghavam cannot be accused of lacking, in his conduct as Premier, sympathy for the demand and the right of Iranian Azerbaijan to a very full measure of political economic and cultural autonomy.

Anti-Arab Scare?

A Jerusalem report from an American correspondent has it that the Arab leaders of Palestine have organised in Alexandria a "Shadow Government" for their country with the Grand Mufti as the "President of the Republic." It is also reported that two Arab "illegal" armies have been united under the leadership of Jamal Husseini. It may well be that the idea is to paint the Arabs in the same colour as the illegal Jewish "extremists" and to scare, with the cry of an imminent Arab revolt, America and Britain into accepting Zionist demands without further delay. The Arabs have displayed commendable restraint so far and have given no indication of any desire to make trouble—yet. They and, indeed, the whole Arab World, represented through the Arab League, have, for the present decided to await the outcome of the London Conference and then to take the matter to the United Nations. If justice is not done to them even then, why should they not be entitled to defend and vindicate their rights by every means possible?

Turkey's Answer

The American Associated Press quotes an Istanbul paper as reporting Soviet military preparations on the Russo-Turkish border. The sudden and surprising Soviet Note to Turkey when there was no occasion for it and when, therefore, it was not expected at all created a tension throughout Turkey to the extent that the nation was prepared for anything to happen at any time. That tension has lessened but it is natural that it should not disappear altogether. And it will not. Meanwhile, the semi-official Ankara paper, the "Ulus" has given a dignified and restrained answer to the Soviet note and the new war of nerves launched by Moscow. But while the answer is dignified, it is also clear and firm as regards the illogical Russian demand for a Soviet military base on Turkish territory. "The Turkish Government", the paper says, "has already emphasised that such a proposal cannot become the subject of negotiations. We hope our second reply will also make it clear that this cannot be made the subject of further correspondence." On the issue of sovereignty and territorial integrity, Turkey will never yield.

Egypt's Need

According to Reuter, it is now confirmed that King Farouk's uncle, Sherif Sabry Pasha, will form the new Egyptian Cabinet. The good news is that he has begun his consultations with various party leaders with a view to forming an all-Party Government including the Wafd. It has been an open secret that relations between King Farouk and the Wafd have not been exactly friendly. The country, however, needs both and no one could be suitable as a liaison between the King and Nahas Pasha and more likely to bring about at least a working understanding between them than the King's uncle who once acted as the Regent of Egypt. Sabry Pasha's task is by no means easy. In addition to resolving the quarrel between the King and Nahas Pasha he has to deal with the feud between the Wafd and other parties. It will, therefore, be all the more a great achievement if he manages to bring all the Parties together. One thing is clear. There was seldom greater need for political unity in Egypt that at this juncture when she is to shape finally and decisively her future as a sovereign, independent country and one of the leaders of the Arab world.

NIGHTMARE FOR JEWS

Jewish Agency Spokesman Denounces Arab Plan

LONDON, Oct. 1 (Reuter): Nothing positive was achieved when the British Foreign Secretary, Mr. Ernest Bevin, and the Colonial Secretary, Mr. George Hall, received representatives of the Jewish Agency here today in a last-minute attempt to find the terms on which the Agency would agree to attend the Palestine Conference.

A 'communique' said that there was a preliminary exchange of views and the meeting was adjourned so that both sides might give further consideration to the opinions expressed.

The statement is considered as evidence that neither side made concessions, says Reuter's diplomatic correspondent.

The Arab British Committee of the Palestine Conference concluded its work to-day by approving its draft report on implications of the Arab plan to make Palestine an independent Arab State. The report will go to the Plenary Session which may be called to-morrow.

A Reuter report from Jerusalem said that a Jewish Agency spokesman stated there was not the slightest chance of the Jews even considering the Arab plan which he said was "simply a scheme to secure absolute Arab rule in Palestine for all time." He added "it may be a dream for the Arabs but it would be a nightmare for the Jews."

U.S. WAR VESSELS TO STAY ON IN MEDITERRANEAN

Dardanelles Issue Might Develop Into Threat To World Peace, Says Acheson

WASHINGTON, Oct. 1. (Reuter): The United States Government considers that the Dardanelles problem might develop into a threat to the peace and security of the world, Mr. Dean Acheson, United States Acting Secretary of State, said to-day.

The State Department was "deeply interested" in the matter and while the issue raised by the latest Soviet note were being considered by the Department and by himself and the Secretaries of War and Navy, no further comment could be made, he said, adding that the United States had no intention of discontinuing the practice of maintaining war vessels in the Mediterranean.

Asked about the statement by Mr. James Forrestal, Secretary of the Navy, that American fleet units were in the Mediterranean to support Allied occupation forces and protect United States interests, Mr. Acheson said that the United States Navy had maintained ships there since the beginning of the Republic.

He denied United States press reports that Turkey had asked the United States for advice on the latest Soviet note or that talks on the matter have taken place between American and Turkish officials.

The fact that the United States was not a signatory of the Montreux Convention was a reflection of past United States policy and did not affect in any way the views taken of the matter at present, Mr. Acheson added.

(Continued from Page 1)

closely involved in the common plan.

He was found not guilty and discharged.

FORMER C.-IN-C. OF GERMAN NAVY

Admiral Karl Doenitz, 53-year-old former Commander-in-Chief of German Navy: No more Army or Divisional Commander. The U-Boat arm was the principal arm of the German fleet and Doenitz was its leader. He became later the head of the State and as such ordered that the war in the East must continue.

Evidence does not show that Doenitz was a party to the conspiracy to wage an aggressive war.

Doenitz was found not guilty on count one but guilty on counts two and three.

BUILDER OF GERMAN NAVY

Admiral Erich Raeder, 69-year-old former Chief of Naval Staff: In the 15 years he commanded it, Raeder built and equipped the German navy The conception of invasion of Norway first arose in the mind of Raeder and not of Hitler.

He tried to dissuade Hitler from attacking the Soviet Union and urged as an alternative an aggressive Mediterranean policy. He also urged war on England as "our main enemy."

Raeder was found guilty on counts one, two and three. He was not charged on count four.

YOUTH LEADER

Baldur von Schirach, 38-year-old youth leader: After the Nazi Party had come to power he used physical violence and other methods to drive out of existence all youth groups. He established the Hitler Youth as a source of replacement for Nazi Party formations.

Schirach was found not guilty on count one but guilty on count four.

NAZI MANPOWER DIRECTOR

Fritz Sauckel, 48-year-old Nazi Manpower Director: One of the most important points in his programme for mobilisation of Labour forces in Germany was systematic exploitation by force of Labour resources of the occupied territories.

Evidence shows that Sauckel was in charge of the programme, which involved deportation for slave labour of some five million human beings, many of them under terrible conditions of cruelty and suffering.

Sauckel was found not guilty on counts one and two but guilty on counts three and four.

ARCH PLANNER OF WAR

Alfred Jodl, 54-year-old former Nazi Chief of Staff: He was the "arch planner of the war and responsible in a large measure for the conduct of operations. After signs of disagreement, von Papen offered to resign but his resignation was not accepted.

Later von Papen retired into private life and took no further active part in politics until he accepted Ambassadorship to Turkey. The Tribunal cannot find that he was a party to common conspiracy against peace."

Von Papen who was charged only on counts one and two was found not guilty on either and discharged.

RUTHLESS TERRORIST.

Forty-three-year-old Nazi Administrator Arthur Seyss Inquart he participated in the last stages of Nazi intrigue which preceded the German occupation of Austria and was made the Chancellor of Austria on German threat of invation.

He instituted a programme of confiscating Jewish property.

As deputy Governor-General of Poland Seyss-Inquart was the author of the fierce occupation policy.

Inquart, as Reich's Commissioner for the Netherlands, was ruthless in applying terrorism to suppress all opposition to German occupation.

Seyss Inquart was found not guilty on Count One, but guilty on Counts Two, Three and Four

Albert Speer, 29-year-old former Armaments Minister:

The tribunal is of opinion that his activities did not amount to conspiracy as he took charge of the Armament Industry well after the wars had been planned. That his activities involved charges under Counts One and Two.

Speer was found not guilty on Counts One and Two, but guilty on Counts Three and Four.

MINISTER WITHOUT PORTFOLIO.

Constantin Von Neurath, the 72-year-old Foreign Minister before Ribbentrop advised Hitler to withdraw from the Disarmament Conference under the League of Nations. He played an important part in Hitler's decision to reoccupy the Rhineland. His resignation was accepted, yet with his knowledge of Hitler's aggressive plans, he retained formal relationship with the Government as a Minister without Portfolio.

In administering his territories Von Neurath played an important part in the wars of aggression which Germany was waging in the East. War crimes and crimes against humanity were being committed under his authority.

He was found guilty on all the Four Counts.

GOEBBELS' DEPUTY.

Hans Fritsche, 45-year-old Deputy to Goebbels: towards the end of war, Fritsche became the sole authority of radio propaganda and issued daily instructions subject however to directive from the Foreign Office and Goebbels propaganda ministry. Martin Bormann, 46-year-old Deputy to Hitler, who was tried in his absence (he is presumed dead): in the beginning he was a minor Nazi but steadily rose to position of power and particularly in the closing stages had great influence over Hitler. He devoted most of his time to the persecution of churches and Jews in Europe and Germany.

Bormann was found not guilty on Count One but guilty on Count Three and Four.

SOVIET DISSENT.

After pronouncing the sentences on all the guilty men, Lord Justice Lawrence British President of the Court, announced that the Soviet member of the Tribunal had placed on record his dissent from the judgments in the cases of three accused who were acquitted: Hjalmar Schacht, the Nazi "Financial Wizard", Frank Von Papen, veteran diplomat and Hans Fritsche, the Nazi broadcaster.

In the Soviet judge opinion, Hess should have been sentenced to death and not given life imprisonment.

Lord Justice Lawrence added "this dissenting opinion will be put into writing and annexed to the judgment and will be published as soon as possible".

U. S. PROSECUTOR'S REGRET.

Mr. Justice Robert H. Jackson, the Chief American Prosecutor, declared in a statement that he regretted that the Tribunal felt constrained to acquit Schacht and Von Papen and also that it failed to declare the High Command criminal.

The Tribunal broke up at 2-46 p.m. after having been in session with two intervals since 8-36 a.m.

Two Rows Of Faces Suddenly Grow Tired

A great change came over the faces of the men when the court announced its verdicts this morning. Goering who entered the court-room in triumph beaming all over his pale face slumped in his corner seat in the dock and hung his head in his pudgy hand.

Frank worked his dry lips nervously as the American judge pronounced him guilty of brutal extermination of Jews. Then he swallowed hard and tears rolled down his cheek.

The general effect on the men in the dock was of two rows of faces suddenly grown tired.

APPLICATIONS FOR CLEMENCY

FRANKFURT, Oct. 1, (Reuter): Ribbentrop Sauckel and Seyss-Inquart who were among the men sentenced to death by hanging at Nuremberg today will apply for Clemency, the United States News Service in Germany said tonight.

Keitel, former Chief of the High Command, will appeal for the sentence of death by hanging to be changed into death by shooting the report said.

Dr. Alfred Seidl, Defending Counsel for Hess, will ask for his sentence of life imprisonment to be quashed.

Dr. Frits Sauter, Defence Counsel for Von Schirach, said that he would not appeal for Clemency for the time being because he thought that the verdict of life imprisonment for Von Schirach was "exceptionally wise, right and moderate."

Counsel for Doenitz will appeal against the verdict because he considers the "ten years' imprisonment too much for a man who is considered innocent."

Goering's counsel does not yet know whether Goering wishes to appeal for Clemency and will talk the situation over with him.

Defence Counsel for Streicher said that he had the impression that Streicher "preferred death to a long term of imprisonment."

U. S. MAY AMPLIFY VIEWS ON DARDANELLES

WASHINGTON, Oct. 1 (Reuter). The United States State Department stated last night that it was thought that the U.S. might amplify its views on the Dardanelles situation if considered advisable.

The statement followed an American news agency dispatch from Washington quoting a high Administration spokesman to the effect that the Turkish Government had already asked the U.S. Government for its views on the latest Soviet note and that top military and diplomatic figures were now consulting on it.

TETE-A-TETE

WITHOUT COMMENT—

"The paper said it was "incomprehensible that the Soviet should feel offended about the Turkish attitude. It is still harder to understand the logic of the argument which brings Russia to the conclusion that a pass on our territory would in no way violate our sovereignty but on the contrary provide even greater security"

S.A.I. CONGRESS TO CONSULT MAHATMA

Distorted Version Of R. T. C. Proposal In European Press

(From Our Correspondent.)

DURBAN, Oct. 1.

The executive of South African Indian Congress decided in camera to seek the advice of Government of India and Mahatma Gandhi on a new approach for holding a Round Table Conference between Govern- of India and Union Government.

Before this advice could be received, a misleading and distorted version appeared in European morning Press on Saturday September 28. In this it was said that the executive had decided on an approach for Round Table conference between the Indian community in South Africa and Union Government.

President Ahmad Ismail issued a statement setting out the true facts. This statement has been cabled to India by Reuter's. From the statement, it is clear that at no time was a conference between the Indian community and Union Government was contemplated or discussed. It was implicit in the executive discussions that Government of India having pressed for a Round Table Conference before passing the Asiatic Act, it was now for Union Government to make a gesture of goodwill by agreeing to the Round Table Conference. At no time had Congress executive suggested or discussed withdrawal of Indian complaint to the U.O.A., against Union Government or of any other actions taken by Govenment of India and Indian community in South Africa such as economic sanctions and passive resistance movement.

CONGRESS INVITES INDIAN LINGUISTS

ALLAHABAD, October 1 (UPI):—Dr. Bal Krishna Keskar, General Secretary of the Congress, has issued the following statement, inviting cooperation of all persons who are well versed in foreign languages:

"The formation of the Interim Government and the possibility of complete transfer of power within a short period emphasise once again the vital need of knowledge of foreign languages and culture. Such knowledge will be absolutely essential for us in order to maintain our position and contact with the outside world. Unfortunately due to our subservient position we were not in immediate need of any such equipment, and there is consequently great dearth of men possessing necessary qualifications.

"The Congress had tried as far back as in 1928-29 to keep a list of persons qualified in foreign languages. The need to-day for tabulation of this type is obviously greater and more urgent.

"We propose to collect and keep for possible future use a list of all persons who possess adequate and practical knowledge of principal foreign languages like Chinese, Arabic, Iranian, French, German, Russian and Spanish. Some other prominent languages are excluded from this list.

"We invite co-operation of all who are well versed in such foreign languages and request them to furnish us with details of their qualifications. It goes without saying that only those who have competent practical knowledge of any foreign language should take the trouble of furnishing us with particulars. Correspondence regarding this matter should be addressed to the Foreign Department of the All-India Congress Committee."

Franco Goes At Russia

MADRID, Oct. 1, (Reuter): Gen. Franco speaking to-day at Burgos on the tenth anniversary of his taking office said: "Spain is the world's main bulwark of Christianity and Hispanism is facing the negative anti-Christian materialism of Soviet Russia"

An A.P.A. message from Burgos says:—

"We know where we are going," he said.

Harking back to the civil war, Gen. Franco said Russia first attacked the "Mediterranean peninsula."

Military Activities On Russo-Turkish Border

SOVIET CONSTRUCT FORTIFICATIONS ALONG FRONTIER LINE

ISTANBUL, October 1. (A.P.A.): Extensive Russian military activity along the Eastern Russo-Turkish frontier was reported yesterday, while Turkey apparently prepared once more to reject Soviet proposals for the Dardanelles.

All persons over 60 years of age have been evacuated into the Russian interior from the frontier and fortifications beginning five kilometres back from the border are being constructed, according to accounts published by the newspaper, 'Tasvir.'

It is difficult to understand whether these works are of a defensive nature or otherwise 'Tasvir' said.

Projectors and anti-aircraft batteries in great numbers have been placed along the frontier to the other. Soviet planes patrol the frontier. The troops garrisoned there are Byelo-Russians and Armenians, the story said.

It added that the Russians were building exactly opposite the Turkish village of Kars, a town named "New Kars." Kars is the seat of Kars province, which the Russians have been reported as demanding from Turkey.

Turkish military authorities reported activity throughout the nation, but the high tension which accompanied disclosure of the new Soviet note of September 28 appeared to be lessening

SOVIET NOTE

LONDON, Sept. 30 (Reuter): Observers in London consider that an important aspect of the latest Soviet note to Turkey on the future of the Black Sea Straits is the suggestion that the Turkish Government is already committed to the view that the matter is one of special concern to Black Sea powers by the Treaty of 1921. The Soviet note was delivered in Ankara on September 24. On August 22 Turkey replied to the Soviet note of August 7—proposing revision of the Montreux Convention of 1936 which now governs the status of the straits—by rejecting the view that their future management should be reserved to states bordering on the Black Sea.

Radically, it is learned from an authoritative source, the 1921 Soviet-Turkish friendship and Non-Aggression Pact is no longer valid. Consequently the argument has moral force only and amounts to a suggestion that the present Turkish Government must be bound by the views of its predecessor in 1921.

UNLIKELY TO ACCEPT SOVIET PLEA

In fact, informed Turkish quarters in London believe that whatever the view of the Turkish Government of 1921, the present Turkish Government is most unlikely to accept the Soviet plan. The rejection of this point and of the claim that the Soviet Union should share with Turkey the defence of the Straits is considered certain to be reaffirmed when the Turkish Government replies to the latest note from Moscow.

Consequently, the latest exchange is not expected to carry this controversy much further and many observers in London are expressing the view that the latest Soviet move was designed mainly to keep the issue alive until a decisive step could be worked out. It still seems to be the case that the Soviet Union is unwilling to lay the future of the Straits before an International Conference until prior agreement has been reached with Turkey and this seems as far off as ever Britain still takes the view that preliminary discussions between the Big Three powers and Turkey as agreed at Potsdam would be helpful but that actual negotiations should not take place until a conference has been called.

NOTHING TO BE OFFENDED ABOUT

LONDON, October 1. (Reuter): Ankara radio last night broadcast a comment by the Turkish newspaper "Ulus" on the second Soviet note proposing a joint Russo-Turkish defence of the Dardanelles.

The paper said it was "incomprehensible that the Soviet should feel offended about the Turkish attitude. It is still harder to understand the logic of the argument which brings Russia to the conclusion that a base on our territory would in no way violate our sovereignty but on the contrary provide even greater security.

"The Turkish Government has already emphasised, that such a proposal cannot become the subject of negotiations. We hope our second reply will also make it clear that this cannot be made the subject of further correspondence.

VAN MOOK SEES LIGHT

Reognises Surge Of Freedom And Says Holland Wants Self-Governing Indonesia

BATAVIA, Oct. 1. (Reuter): Representaves of the Netherlands Government and of all groups of people in Indonesia met to-day at Pangkal Pinan, Bangka island, in the opening session of a conference to discuss their future policy in Indonesia.

Dr. Hubertus Van Mook, Lt.-Governor-General of the Netherlands East India in his opening speech spoke of the problems of post-war reconstruction. Referring to the political and social revolution, he said it had earlier been realised that the Netherlands East Indies of pre-war days could never return. One had only to look elsewhere in Asia to realise that the strivig for freedom in this part of the world had become general, even without taking account of Japanese influnces.

"Although we originally reported the republic too much as a Japanese invention—a sort of Japanese machinatio—it is apparent, looking back into history, that forces were at work that signified more and were rooted deeper than the mere surge of wild terrorism—forces which at the same time resisted the Japanese Fascist war.

"We have also come to the conclusion that certain acts, particularly on the part of the British High Command, which at one time caused criticism in the final instance caused but a slight change in the course of events.

MILITARY ACTION WON'T DO.

"However much society needed and needs restoration of justice and order, the problem could not be solved by military action. Such military action might easily have deteriorated into a colonial war.

"We could not expect nor use our Allies to undertake such action.

"One thing is certain", Dr. Van Mook declared, "For Holland, the road must lead to a self-governing Indonesia. The Government has tried by all means at its command to establish the apparatus most likely to contribute to restoration.

APOLOGIA FOR MORE TROOPS

"The sending of Dutch troops should be viewed in that light.

If we take over our British Allies' task, it must be done in such a manner that the safety of the people at present guaranteed by the Allies remains properly secured.

Regarding the future political structure, Dr. Van Mook said that the Malino resolutions could best be used as a starting point, "because it is likely that the Federal construction adopted there will probably be the structure of Indonesia".

Orissa To Have New Capital

CUTTACK, Oct. 1 (UPI): Bhubaneswar will be the new capital of the Orissa Province. A decision to this effect was taken by the Orissa Assembly yesterday when the resolution moved by the Premier, Mr. Hare Krishna Mehtab, that the capital of the Province be located at Bhubaneswar and steps taken to construct buildings there as early as possible" was passed by the Assembly unanimously. The resolution was supported by Rai Bahadur Lokenath Misra, a member of the Opposition.

Speaking on the resolution the Premier said that Bhubaneswar which was known as Kosali was the seat of the Buddhist, Jain and Siva cultures. When the Province was extended Bhubaneswar was the seat of the Government. Besides the place had material advantages now.

Mr. Mehtab said that a provision for Rs. 50,000 had been made in the budget for the construction of the capital and revealed that as soon as the aerodrome buildings which were now situated there were made available to the Government some offices would be shifted to Bhubaneswar.

Concluding, the Premier said that the Asoka edicts, which still stood on the soil of the proposed capital, would convey the message of goodwill, peace and service.

JAI PRAKASH BACKS MAULANA AZAD

"Only Man Who Can Discharge President's Responsibility"

BOMBAY, Tuesday.

The view that Maulana Abul Kalam Azad was the only leader in the Congress who could discharge the responsibility of a Congress President at this juncture was expressed by Mr. Jai Prakash Narayan, Member of the Congress Working Committee, in an interview to the "United Press of India" this morning discussing the forthcoming presidential elections.

Referring to the suggestions made a few days ago in New Delhi that his name would be put forward as one of the candidates for the presidential election, Mr. Jai Prakash said that he did not wish to contest the election for the coming session.

The Socialist leader referred to the present political situation in Goa 'vis-a-vis' the arrest of Dr. Ram Manohar Lohia and hoped that the people of Goa would take the lead given by Dr. Lohia and respond to his call. He himself was not able to take up the Goa question, especially when so many other problems were facing the country at the moment when he could hardly afford to get 'stuck up' in Goa. He stated that during his recent talks with Mahatma Gandhi and Pandit Nehru in Delhi the Goa question did not figure.

"But", Mr. Narayan added, "we cannot allow Dr. Lohia and others who are working in the Goa struggle to be indefinitely confined. Something has to be done and I hope it will be done soon."

Mr. Jai Prakash who arrived in Bombay on Sunday in connection with the work of the Congress Socialist Party, is leaving for Patna on October 4.

BOMBAY ASSEMBLY PASSES FIRST READING OF LABOUR BILL

POONA, October 1.

After 25 hours' discussion the Bombay Legislative Assembly passed today the first reading of the Bombay Industrial Relations Bill moved by the Labour Minister, Mr. Gulzarilal Nanda.

The Labour Minister in his reply to the criticism of the bill refuted the charges made that the bill would act against the interests of workers and Trade Union movement or hamper industrialisation in the province. The measure, he said, sought by democratic methods to bring harmonious relations between employers and employees.

In the course of his reply, Mr. Nanda indicated that the question of standardisation of wages for workers, providing them with housing facilities, and other amenities, plans for social security and question of welfare of workers, in general, was seriously engaging the attention of the Bombay Government. The Labour Minister said that the question of standard wages should be decided within a few weeks as it would form a term of reference of Industrial Court. The Government had set up a Housing Department under him to tackle the question of providing housing facilities. The question of providing social security would be a matter to be decided in consultation with the Central Government and the question of welfare of workers was to be made a matter of inquiry. He opined that for the workers to get their full living wages, less greed on the part of employers and more production was necessary. Mr. Nanda appealed to the employers to move with the times and get themselves ready to fit in a national plan for rapidly realising living wages.

Earlier the house heard the view point of employers as put forward by Mr Ramnath Poder (East India Cotton Association) and Mr. C. S. Patel (Indian Merchants' Chamber) and Mr. C. P. Parikh (Ahmedabad Millowners). All of them maintained that some of the provisions in the bill would prove harsh to business and industrial community.

Mr. Chanusingh K. Chandale (Sholapur City, Textile Labour) supporting the bill suggested certain modifications which in his opinion would help the Labour class. He also put forward the view that the Government should proceed with the nationalisation of textile industry in the province.

TWO LEAGUE ADJOURNMENTS ADMITTED

Two adjournment motions tabled on behalf of the Muslim League Party in the Bombay Legislative Assembly have been admitted by the Speaker today. One of the motions will be discussed tomorrow afternoon and the other will be taken up during the course of this week.

One of the motions in the name of Mr. A. A. Khan, Deputy Leader of the League Party seeks to discuss the statement of Mr. B. G. Kher, the Leader of the House, made on the floor of the house on Friday last "as the said statement raises grave issues regarding the conduct of the police during riots and the apportionment of blame for the riots."

The second motion in the name of Mr. J. H. Shamsuddin seeks to discuss "the failure of the police to provide adequate protection to the life and property of Scheduled Castes people of Bawda Village, in Indapur taluka, Poona district on the occasion of "Bail Pola Day" on September 25 and September 26."

BIG RICE SHIPMENT ON WAY TO INDIA

Punjabi For Batavia To Renew Contact With Shariar

NEW DELHI, Oct. 1 (A.P.I.): The 6,000 tons of Indonesian paddy which recently arrived in Cochin is the first instalment of some 25,000 tons due to be shipped from Indonesia to India soon. These 25,000 tons have already been loaded in ships in Indonesian ports and are expected to be on their way to India in the next few days.

Including this quantity, Indonesia can spare about 500,000 tons of rice for India. Negotiations for the purchase and movement of this rice to India were undertaken some weeks ago by Mr. K. L. Punjabi, Joint Secretary, Food Department. These made some progress and Mr. Punjabi, who returned to India recently, is flying to-morrow to Batavia to renew contacts with Dr. Shariar and the Dutch Government to discuss and arrive at an agreed arrangement on the provision of transport. Mr. Punjabi is expected to be away for two or three weeks. On his way to Batavia he will visit Singapore and discuss arrangements for shipping and other transport with the Supreme Allied Commander, South-East Asia.

On her side India is sending a consignment of consumer goods and much needed equipment like lighters for the use of Indonesia. A ship carrying these is about to leave Bombay.

No Strategic Adjustment Of Greeco-Bulgarian Frontier

Greece's Demand Rejected At Peace Conference: Stage Set For Full-Dress Debate On Trieste

PARIS, Oct. 1 (Reuter): Greece's demand for a "strategic adjustment" of the Greeco-Bulgarian frontier was defeated at the Paris Conference today.

Her amendment before the Bulgarian Political and Territorial Committee was lost by eight votes to two with three absentions. The absentions were Great Britain, India and New Zealand.

RUSSIA ACCUSES GREECE

When the debate opened, Greece was accused by Russia of waging military campaign against her own people and was told that she need fear no danger from the "new democratic Bulgaria".

M. Kimon Diamantopoulos said that Greece considered her security was of paramount importance.

M. N. V. Navikov (Russia) stated that the Greek Government should not create new difficulties for itself by creating difficulties with its neighbours.

Mr Jefferson Caffery (United States) said that the United States had grave doubts regarding the development of democracy in Bulgaria and added that their evidence was to the contrary.

Mr. J. A. Marjoribanks (Great Britain) said that Britain felt very strongly that as Greece had made a very gallant contribution to the war she was above any country entitled to full security on her frontiers.

FUTURE OF TRIESTE

The decks have now been cleared for a full dress debate on the most controversial issue still unsettled, namely, Trieste.

The Committee, whose debate will be limited to a day and a half, has before it the final report of its sub-Committee which after 15 meetings has failed to reconcile the differing views on the future international status of the proposed free territory held by Britain, United States and France on the one hand and Russia and Yugoslavia on the other.

The "Associated Press of America" adds: The Italian Political Commission voted down a Yugoslav demand for virtual veto power over all terms of the Italian Treaty, in rejecting a Yugoslav Amendment which would have made the treaty ineffective until ratified by Yugoslavia.

This was presented as an amendment to a Big Four backed article, and Russia, faithful to her commitments in the Foreign Ministers Council, voted against it.

FREEDOM NAVIGATION ON DANUBE

The Paris peacemakers approved tonight the western-proposed principle of freedom of navigation on the Danube.

Delegates to the Balkan an Finland Economic Commission voted eight to five, with India abstaining, in favour of writing guarantees of freedom of navigation on the Central European water highway into the peace treaty with Rumania and foreshadowed similar action on the treaties with Bulgaria and Hungary.

BURMA POLICE STRIKE TO END

RANGOON, Oct. 1, (A.P.I.): The four-week-old police strike is expected to be called off at an early date following an agreement reached yesterday between the Government and strikers on the non-victimisation of strikers and the release of those arrested.

As an interim relief, the Government has offered an increase of Rs. 10 in the cost-of-living allowances for the strikers drawing upto 250 per month, pending review of the allowances by a Joint Board.

The police strikers are willing to accept the offer but the representatives of Government employees, who are also on strike, are still not satisfied. The Interim Government in the meanwhile is considering its sub-committee's report on allowances for Government employees.

D. F. KARAKA

Off My Chest

Sometime ago, I made the suggestion that we should have a new national flag which would please both the Congress and the Muslim League. I had suggested that it should be a flag of saffron, white and green with the crescent on it, instead of the charkha.

To-day, I have received a letter from a reader in Indore State. He says, "Now I am very much interested in the fascinating science of numerology and so I found out the numerical values of the three colours and the crescent. They total 22, a very unfortunate number, signifying false judgment, error and folly, coupled with imprisonment, accidents and wilful injury. Its other indications are success followed by loss, ill-advised alliances and final catastrophe".

Now, I believe that numerology should not be ignored in matters so vital as this. Whether the reader's calculations are correct or not, I don't know, but they should be taken into consideration.

Numerologists in this country may be able to throw more light on this.

My reader from Indore then goes on to say:

"I suggest that the charkha (vibrating to 1) may be included in addition to the crescent as one of the constituents of the flag thus bringing the total to 23 which is a very lucky number and denotes celebrity, success, fame and prosperity".

This might help the country and we might find peace and law and order instead of the present state of chaos.

The question of the national flag has not even been touched upon by the new Interim Government, whereas one would have thought it would be one of their first acts of State.

India is an emotional country. It reacts more to emotion than logic. The whole struggle for our independence has been won by emotion. Emotion has brought sacrifices which logic would never have produced.

So let us have this flag. Let our national leaders give us their views on what they would like as a national flag.

The county wants a new flag to usher in the new era of freedom.

Let us have the flag NOW.

WORLD'S GREATEST CRICKET STORY —XV

The Pudsey Marvel And The Pride Of Kent

Holmes another marvel from Pudsey and co-holder with Sutcliffe of the world record for the first wicket was never selected to represent his country in Australia because his stance did not please a famous selector But we in India with the antics and predilections of our Indian selectors still raw in our mind are not likely to be much jolted by this stray exhibition of prejudice.

Stories of the 'Pride of Kent' majestically indifferent to all kinds of bowling, of 'Duleep' at play, Ranji anecdotes, and 'Plum' Warner's selection for All Time Australia against All Time England are the other highlights of this Chapter.

Secrets of Big Cricket

BY WALTER HAMMOND

A batsman who never won the rewards he richly earned was Holmes of Yorkshire. It was said of him that he was the finest batsman who never went to Australia; and I can tell you one of cricket's secrets as to why he was always omitted.

Style Kept Him Out

Many years ago, a famous Selector, now dead, watched a match in which Jack Gregory made on English batsman after another wince away from the wicket, which he then promptly knocked flying. Holmes was playing in that game.

As a matter of fact, he got a moderate score, and stayed in for some time. But his style so infuriated the Selector that he is reported to have said: "While I live, that man shall never play for England." And that is what happened.

The Pudsey Marvels

One of cricket's dramas took place when Holmes and Sutcliffe, with a first-wicket partnership of 555 runs, broke the record set up by my old tutor, Tunnicliffe, and Brown, who scored one less. Sutcliffe, Tunnicliffe and Hutton all came from Pudsey which used once to be a music-hall comic's joke-town, but is now the terror of all bowlers in case they have any more at home like that!

Imagine the excitement when the score of 555 was subsequently checked, and one of the scorers decided that they had credited a bye as a run, and so Holmes and Sutcliffe had former record, and not

[redacted]ch dismay and a feverish runs, it was presently 555 was correct; and the ef from 22 players and ows how many thousands might have been heard ondon.

[redacted]*ride Of Kent"*

[redacted]an who did not go to Aus-n as he should have done Woolley. Rightly was that man called "The Pride of Kent." His majestic indifference to all kinds of bowling was something worth travelling miles to see; and before he had faced two overs, any cricketer could see that here was a master; just as you did not have to hear Paderewski play more than two or three crashing chords to know his greatness—it was not necessary to listen to a whole recital.

I shall never forget the Lord's Test in 1930, when Sutcliffe could not play and Woolley opened with Jack Hobbs The Australians were on the kill, and Jack was out early; but Woolley treated Grimmett and the rest as if they were a team of schoolboys, flicking, cutting, driving, nose over the ball, using his great reach so that even the best length balls could be slashed flying to the boundaries. He scored only 41, but it is an innings that will live for ever in the memory of all who were there.

The Perfect Duleep

I remember that game for another vivid little picture, too—that of "Duleep", his silk shirt fluttering in the breeze, making an absolutely perfect 173, with his famous uncle, "Ranji", watching him from the pavilion, for once a perfectly happy man.

It was always said that "Duleep" felt awed in his uncle's presence and only on that solitary occasion did he do himself justice before him, though many a time when "Ranji" was watching, the universally-popular young Indian got out quickly through over-anxiety and then, almost in tears, went away by himself.

But who am I to talk—I who once 'scored' seven ducks in a row, and have three times bagged a brace'!

Ranji Legends

"Ranji" could never have understood anyone suffering from 'nerves', for that was a thing he never did. An amazing example of his sheer confidence and ability took place on one occasion when a newspaper offered £250 to the reader who should guess the highest scorer of the week. Miss Fry, "C.B.'s" daughter, wrote: "Ranjitsinhji, 178"; and when South Africa were playing Sussex that week, Fry told "Ranji" about it.

"Very well," he said, "I'll get 178 and then we can declare the innings closed"—for their position was very strong.

He did so. But Miss Fry only got half-a-crown! Some 2,000 other people had also guessed correctly.

On another occasion, "Ranji" had promised a house-party some trout, to catch which he had to get up about four o'clock and walk a long distance to a special stream. The previous day, Sussex got into difficulties, and the Indian was told that he would have to get a double-century next day to save the match, and must therefore be sure to get a long night's sleep so as to be fresh and fit next morning.

The trout were on the table at breakfast, after which 'Ranji" went out and got 285 not out in his own classic style.

England's Lifeboats Men

Eddie Paynter is one of the batsmen whose name clamours for admission into any list of great players of recent years. I have told elsewhere how he rose from a hospital bed to help beat Australia in a crucial Test, and had to be put back there, but got up again to make the winning hit.

He, Leyland and Ames have saved England so often when things looked black that they might well be called cricket's lifeboatmen!

In thinking of him, I shall always remember especially his grand innings in the second Test of the 1938 series I had won the toss for England, and outbatting began with tragedy—3 down for 31 runs, and a nasty jumping ball. Paynter came out to join me, peeping quite fiercely over the top of his big bat; and he had scored 99, and our total was well over 200, when he unluckily put his leg in front of one from O'Reilly. I went on to collect 240; and one of the proudest moments of my life was when the M.C.C. members rose to welcome me as I walked in at the close of the first day's play.

A Rising Star

In the 1936-7 Australia tour, Charlie Barnett showed some of the greatness that marks him out as one of the best bats of recent years. In the fourth Test, on a difficult wicket, the Australians were all out for 228, and Barnett opened for us and collected 129 out of our 330 total. It was a lovely innings of unforgettable shots. I can claim a modest share in helping to shape this fine batsman, for when he first turned out for Gloucestershire, he was for a long while too rash in attacking before he was ready to do so; but I tried to help and advise, and presently he developed patience and restraint, and so was able to prove himself one of the best batsmen of later years.

I remember one of his tremendous sixes, in an upcountry match in Australia, sailing into a field where the biggest bull I have ever seen immediately came up and blew meditatively upon the scarlet ball, and waited for someone to come and fetch it. All of us gathered at the fence rails and said to each other: 'Go and get that ball and let's get on with the match."

The Easier Way

After some time, somebody found another ball, and we left the bull to play out a single-wicket game all by himself. It seemed so much easier that way!

It was Barnett, too, who, during a game in which some little fuss blew up over a trivial matter, made everyone shriek with laughter by saying to a bowler, who was rather exasperated with the terrific heat and his own part in the argument: "Now what about tossing me up a full pitch to leg?" Barnett's score at the time was 96; the bowler was so wild that he actually did send up a full pitch to leg, which Charlie promptly sent sailing over the rails for a huge six; and everyone collapsed. The bowler bore him no grudge and laughed as heartily as anyone, though he managed to bowl him a few balls later.

The Best Ever

The two decades, 1920-40, saw more great batsmen, I believe, than any similar period in cricket history. I wonder if you agree with me? Think of Hobbs, Sutcliffe, Woolley, Hendren, Wyatt, Jardine, Mead, Chapman, Duleepsinhji, Ernest, Tyldesley, Hallows, George Gunn, Jupp, Holmes, Leyland, Ames, Paynter, Hutton, Barnett, Gibb, Walters.....where can you match them?

Just to intrigue you into choosing something different, I will tell you of a choice that the English touring side of 1932-3 made, on one of those long Australian railway journeys, of the "Best Ever" English and Australian XI's. Sir Pelham Warner and Mr. Palairet were present at this selection, which represents the agreed choice of some of the best judges of the game who have ever lived.

For England: W. G. Grace (Captain), Ames, Barnes, Foster, Hammond, Hobbs, Lockwood, Lohmann, Ranji, Steel and Woolley; for Australia: Noble (Captain), Armstrong, Bradman, Giffen, Gregory, Hill, MacCartney, Oldfield, Spofforth, Turner and Trumper.

What a match! I should not like to bet on it! I should not dare to remember my own name, but "Plum" Warner has put the teams on record in one of his fascinating cricket cooks. If you prefer, you can put Sutcliffe in as an alternative—but I should love to be there when the game was played!

NEW BOMBAY-CALCUTTA AIR SERVICE INAUGURATED

Juhu To Dum-Dum In Seven Hours: 21-Seater 'Dakota' Carries Party Of Journalists

BY THOMAS J. COUTINHO,
Our Staff Reporter

Travelling by air is now fast coming in vogue in India and Indian aviation is not lagging behind in its post-war expansion. Signs of this are evident in the new air services that are being started one after another to cover the vast traits of this sub-continent.

To the list of the pioneers in Indian civil air transport was added a fresh name on Saturday last when Mrs. Dahyabhai Patel, the daughter-in-law of Sardar Vallabhbhai, Home Member in the Interim Government, inaugurated a new Bombay - Calcutta service run by Mistri Airways, Ltd.

I was one of a party of journalists who flew from Juhu to Dum-Dum in the 21-seater Dakota "Star of Bombay," launched by Mrs. Dahyabhai Patel.

Among those who were present at the brief ceremony were Mr. Russi Mistri, the young industrialist and Chairman of Mistri Airways, Mrs. Dahyabhai Patel and a few other distinguished members of Bombay's commercial stardom.

The aircraft was piloted on its maiden trip by Captain Namjoshi and co-Pilot Anwar, two intrepid young Indian fliers. We took off at 7 a.m. and reached Calcutta on schedule at 2 in the afternoon after a brief halt for breakfast at Nagpur.

The 'plane performed marvellously and the trip was one of the loveliest I ever had. This, I say as I have flown in military Dakotas before, piloted by even ace Wing - Commanders of the R.A.F. I could say without the least hesitation that our lads have really conquered the skies.

Being a Pilot himself Mr. Russi Mistri has selected the best Indian talent available to form his air-crew.

ARRIVAL IN CALCUTTA

Arriving Calcutta on the tick of the schedule we went round the city and saw the scars left behind by the desolation caused by the vandalism that followed the communal trouble there on Direct Action Day. Calcutta looked like a long bed-ridden patient rallying every ounce of strength to recoup health lost in a deadly malady.

We spent the week-end in Calcutta and returned to Bombay by the "Star of Nagpur" on Monday. Originally when we started it was decided that we should return on Sunday, but Mr. Vadilal Gandhi, a Director of Mistri Airways and a city multi-magnate who flew to Calcutta with us was by the time we reached Dum-Dum bitten by the journalistic bug and he saw that we needed at least a day to look round Calcutta if we were to justify our visit to the place as newsmen. He altered our itinerary and put the "City of Nagpur" at our disposal to fly back to Bombay a day later. He of course being a busy man could not wait to escort us on the return journey and left by the "City of Bombay" on Sunday.

Mistri's have no hostesses yet, but even as mere hosts they are just as good.

Tymms Says Fare Will Soon Be Reduced To Three Annas A Mile

MADRAS, Oct. 1. (A.P.I.): The Hindustan Aircraft Factory at Bangalore according to Sir Frederick Tymms, Director General of Civil Aviation, India, would be retained as a nucleus for the future aircraft manufacturing industry in the country.

Sir Frederick was speaking at a meeting of the South India Chamber of Commerce here yesterday.

Sir Frederick explained the functions of the Air Licensing Board. The Board had a great responsibility and was taking every precaution to see that only such of the companies which fulfilled certain qualifying clauses were allowed to operate, for instance, it was incumbent on the part of the companies to employ only such of those pilots who had least 750 hours of flying to their credit.

At the present there were 19 airlines operating in the country. It was Sir Frederick's view that a third of this number would do for India to operate with efficiency. He also expressed concern at the over-capitalisation of these companies each of which had least a capital of some two crores of rupees.

Sir Frederick expressed himself against nationalisation of air transport. Provided the Air Licencing Board kept up the necessary vigilance he was certain that a free place of competition among different companies would assure efficiency and comfort in air travel. Regarding fares, he was of the opinion that they should soon be reduced to three annas per mile.

Asked for his views with regard to the manufacture of aircraft within the country, he replied, at least 15 years would be required before India could boast of a full-fledged aircraft factory.

Precautions To Avert Dakota Crashes

NEW DELHI, Oct. 1, (A.P.A.): Regulations governing the use of Dakota aeroplanes on India's Civil Air Lines are considerably more stringent than those acceptable in other countries, Air Vice-Marshal Sir Edward Rice, Deputy Director-General Aircraft Division, of the Civil Aviation Office, said to-day.

Sir Edward made this comment in reply to a question whether, in view of recent crashes of Dakotas in other parts of the world, any special precautions were being taken in India, where this type of plane is used almost exclusively by air lines.

"We have always taken special precautions", Sir Edward said,

IMPROVING CITY'S SANITATION

Mayor's Tribute To N. V. Modak's Scheme

BOMBAY, Tuesday: Mr. N. V. Modak, who during the last four months acted as the Municipal Commissioner of Bombay and now has been appointed Special Engineer to the Bombay Municipality, was entertained this evening at the Municipal Corporation by the Mayor, Mr. M. I. Rowjee. A gathering of nearly 200 persons including members of the Corporation and Mr. Hoosseinbhoy Laljee, Sir Sultan Chinoy and Sir R. M. Chinoy, the ex-Mayors, was present.

The Mayor extolled the services of Mr. Modak to the City during his term of office.

Referring to some of Mr. Modak's schemes in hand, the Mayor said that the one for removing the nuisance due to the discharge of crude sewage at Love Grove, the town-planning scheme for the Mandvi area and other schemes for the improvement of slums and covering the open channels at Haines Road, in improving the health of the City, when executed, would go a long way

He wished Mr. Modak greater success in his future career.

Thanking the Mayor for the honour done him, Mr. Modak said that among various works to be carried out for improving the City two needed special attention and should be carried out simultaneously, namely, drainage and water-supply. Two systems of drainage had been carried out lately in America and England. If adopted here they would not only prove useful but economical also and the whole country could benefit.

He sought the co-operation and sympathy of the Corporation in the execution of the post-war development schemes for Bombay and assured the members that he would discharge his responsibilities to the best of his ability.

It is stated that the United Hindus Organisation will seek "confederation of all Hindus as the major community of this great country of ours", to protect the life and property and "the cultural rights" of the community from hostile attacks.

Motor Dealers Welcome Removal Of Ceiling Order

BOMBAY, Tuesday: The announcement from Delhi that the Motor Vehicles Control Orders will not operate from to-day is welcomed in circles interested in the motor car trade in Bombay.

Sir Sultan Chinoy, a leading importer of automobiles, thought that the lifting of controls would improve the motor trade in India. He suggested that side by side with this measure, the Government should also encourage large-scale imports of motor cars.

As conditions are, it is stated there are not enough cars to be sold to the public who will look to the importers to get their requirements. Cars which are lying in centres of production in America are not expected to reach this country for at least three months owing to a number of strikes there. Hence motor traders in Bombay are inclined to believe that there will continue to be acute shortage of motor vehicles for some time to come.

SCATTERED SHORT COVERING AND PROFESSIONAL SUPPORT

Sharp Decline In Cotton Prices On Heavy Liquidation

Wall Street Heavy On Pushing Up Of Cost

DRIBBLING MILL BUYING ON NEW YORK COTTON EXCHANGE

NEW YORK, Sept. 30.

Wall Street: Small rallying tendencies lifted some issues from the day's extreme lows but steady selling for both tax purposes and profittaking continued to give the stock market a heavy appearance. Many observers believe that the labour situation rather than the prospect of business recession is the chief cause of investment uneasiness. Demand for goods and money with which to pay for them continues strong but labour strength and wage demands are pushing up costs to a point where "profitless prosperity" may, it is feared lie ahead. Earlier in the session the market showed losses up to 3 points in moderately active dealings with pressure concentrated on leading steels, motors, minings, farm implements, oils, aviations and chemicals. This produced unevenness in most of the other divisions. In the final hour losses up to 2 points prevailed with thin issues, like union pacific declining about 3 to four dollars. Leading shares were in slightly better demand featured by aircrafts, minings, rails and steels, with the last reflecting maintenance a high ingot rate in face of stringency of scrap. The market closed heavy.

NEW YORK COTTON MARKET

Cotton opened firm 27 to 7 higher and near months were again prominent in early burst of buying from the trade and mills, much of which had accumulated over the weekend. But the initial rise quickly attracted rather aggressive profittaking and hedging with easiness of securities temporarily supplying an unsettling influence. Selling continued until all months except October, had lost opening gains but pressure then subsided and the market steadied on renewal of new buying. Anticipation another increase in cotton goods ceilings, expectations of a higher mid-September cotton parity price after the close today and lower crop ideas supplied again the main bullish influences. The market fluctuated fairly during the afternoon until near months finally rallied on persistent dribble of mill buying and subsidence of hedging. 1947 crop however continued to decline owing to apparent uncertainty over longterm outlook. Otherwise there was little fresh news to account for the action of the market. The session closed very steady, this crop 20 higher to 1 lower and next crop 15 to 20 lower. Sales are estimated at 275,000 bales.

Liaquat Ali Khan To Choose League Candidates For Sind

KARACHI, Oct. 1 (API): For the 35 Muslim seats in the Sind Assembly, the Muslim League has received applications for 30 seats for grant of League tickets. For these 30 seats there are over 50 applicants and efforts are being made to bring about a settlement between them.

Yesterday was the last date for the submission of applications for League tickets, but the date has been extended up to October 2, so as to enable candidates for the remaining five seats to put in their applications.

Mr. Liaquat Ali Khan, General Secretary of the All-India Muslim League, is expected in Karachi within two days to make final selection of the League candidates.

Quit Order On Khursheed Anwar

PESHAWAR, Oct. 1, (A. P. I.): Khursheed Anwar, Naib Salar-I-Ala of the Muslim League National Guards, has been served with a notice to leave the limits of Peshawar District. The notice was served on him in the village of Pabtu and he is believed to have gone to Mardan.

Begum Shah Nawaz

LAHORE, October 1. (O.P.I.): A telegram is received here by Begum Shah Nawaz, informing her that she and Mr. Isphahani of Bengal have been elected to proceed to Bengal in response to various invitations from there, urging the League to send a delegation to the United States of America for League propaganda.

Begum Shah Nawaz visited the United States as a member of the Defence Council, and is known to many big personalities there.

It is learnt here that Mian Mumtaz Khan Daulatana who had offered his services could not be spared by the League in view of the proposed Direct Action Movement.

Pakistan Delegation To Foreign Countries

LONDON, Sept. 30. (Reuter): Mr. Yusuf Abdulla Haroon, President of the Sind Muslim League tonight refused to confirm or deny that he had seen the Soviet Foreign Minister, M. Vyacheslav Molotov, on his recent visit to Paris.

He also declined to speak of his intention stated last week that he would discuss with M. Molotov the raising of the Pakistan issue before the United Nations Assembly.

Mr. Haroon, who is flying to India tonight, told me "I have nothing at all to say at the moment beyond the fact that I discussed certain matters with important individuals while I was in Paris. I can neither confirm nor deny that I saw M. Molotov.

"After a short stay in Karachi, I shall fly to Delhi to see Mr. Jinnah to suggest that he should send an influential delegation to London, Moscow and New York to state the Muslim view point. I am sure that the necessary facilities will be granted to us by the Indian Interim Government for such a tour.

"It is for Mr. Jinnah to decide the composition of any such delegation."

Mr. Haroon said that he expected to return to London in a month's time and discuss with Members of Parliament Pakistan problems.

Khizar Refuses to Oblige Mamdot?

LAHORE, October 1. (A.P.A.): The Punjab Muslim League week-end "peace mission" to Simla "to persuade Sir Malik Khizar Hyat Khan back into the League fold" did not succeed, it was learned last night.

A League source close to Khan Iftikhar Hussain of Mamdot, President of the Punjab Muslim League who headed the Mission told the Associated Press of America, indicating the apparent failure of the Mission. "It seems at present that the Punjab Coalition Premier, Malik Khizar Hyat Khan, is not coming into the League."

Malik Khizar Hyat Khan broke away from the Muslim League in the early summer of 1944 after prolonged talks with Mr. Jinnah over the Unionists-League issue.

20 OUT Of 26 Calcutta Papers Remain Closed

League Journalist Regrets Decision

CALCUTTA, Oct. 1 (API): Twenty out of twenty-six Calcutta morning newspapers had no issues this morning.

A number of them had announced yesterday that they would remain suspended from to-day as a protest against the Bengal Government order relating to publication of news regarding communal disturbances in Bengal, following the majority decision for suspension taken at a meeting of 20 representatives of Calcutta newspapers held on Sunday.

Mr. Tushar Kanti Ghosh, President of the All-India Newspaper Editors' Conference, has called an emergent meeting of editors and conductors of Calcutta newspapers for this afternoon to consider Mr. Suhrawardy's statement yesterday on the suspension decision.

LEAGUE'S PLEA

On behalf of the Muslim League press in Calcutta, Mr. S. A. Khan of the daily 'Azad' in a statement regrets the decision taken at a conference of Calcutta newspaper editors and conductors, held yesterday, to suspend publication as a protest against the Bengal Government's order imposing certain restrictions on the publication of the news of communal disturbances in the province.

Mr. Khan says that on behalf of the Muslim League press he had suggested at the Conference yesterday that the Press Advisory Committee be given the power to issue an authorised version of the disturbances every day for publication in all the newspapers in Calcutta.

But, he complains, the Hindu newspaper editors and proprietors did not care to appreciate the reasonableness of the attitude of the Muslim League press and a section of them is now bent upon making political capital out of this issue and is influencing the other sections as well.

Mr. Khan feels that peace will come to Calcutta only by showing goodwill to and co-operating with the Government and not by adopting an "obstructionist attitude." Congress papers, he adds, will be defeating the very purpose of bringing peace in the city by their "unreasonable attitude."

Finally Mr. Khan appeals to the Government to appoint a Press Advisory Committee from among those newspapers, who are willing to co-operate.

DON'T GIVE CREDENCE TO RUMOURS

BOMBAY, October 1. (A.P.I.): The Government of Bombay in a Press Note today appeal to the public to completely ignore "unauthorised and anonymous literature that has lately made its appearance in Bombay", not to give credence to rumours circulating in the city but to actively co-operate with Government in hastening the return of normal conditions in the city.

The Press Note says: "Mischief mongers and anti-social elements interested in keeping up an atmosphere of disquiet and nervous tension have lately been active in the city of Bombay. These elements have recently circulated most irresponsible and mischievous type of anonymous literature, whose sole aim can only be to prevent the return of peaceful conditions in the city. Rumours designed to create a serious scare among the people of Bombay have also gained persistent currency in the city in the last few days. The worst instance of such rumour is the one to the effect that milk sold in certain parts of Bombay has a trace of poison in it. This is a sinful rumour which has no basis whatsoever in fact.

The public is, therefore, requested not to give credence to it. The public is also requested actively to co-operate with the Government in hastening the return of normal conditions to the city by completely ignoring unauthorised and anonymous literature that has lately made its appearance in Bombay and that is patently inimical to the interests of the people of the city."
